

CAES COVID-19 Screening Questions

1. Have you traveled from or traveled to a COVID-19 hot spot in the United States or internationally in the last two weeks? A hot spot includes any county in the United States shown in red or orange on [this map](#) or any foreign country with infection rates equal to or exceeding any such counties.
 - o Yes – Contact [CAES Director/COO Terry Brog](#) to determine if a quarantine period is necessary.
 - o No - go to next question

2. Do you or have you had any of the following symptoms in the past 14 days?
 - Fever or chills
 - Cough
 - Shortness of breath or difficulty breathing
 - Fatigue
 - Muscle or body aches
 - Headache
 - New loss of taste or smell
 - Sore throat
 - Congestion or runny nose
 - Nausea or vomiting
 - Diarrhea
 - o Yes - self-isolate for minimum of 10 days after date of first symptom and 72 hours after symptoms have subsided and Refer to [CAES Decision and Action Tree Trigger#2](#).
 - o No - go to next question

3. Have you been directly exposed to a person with symptoms of COVID-19? (fever of 100.4 or greater, cough, shortness of breath).
 - o Yes - self-isolate for 14 days and Refer to [CAES Decision and Action Tree Trigger#1](#).
 - o No - OK to access CAES facility

4. Have you or anyone in your immediate household tested positive for COVID-19 at any time?
 - o Yes – inform your host and supply date of positive test to determine if access to facility will be allowed.
 - o No - OK to access CAES facility

Contact [CAES Director/COO Terry Brog](#) if any of the triggers on the [CAES Decision and Action Tree](#) apply.

Should you develop symptoms or test positive for COVID-19 within 14 days of your first CAES entry, or at any time within 14 days of your visit to CAES, you shall immediately contact your host to disclose a possible or confirmed COVID-19 infection.
